Bachelor of Science in Education (B.S.Ed.) in Early Childhood and Elementary Education

As a student in the early childhood and elementary education program, you’ll learn the ins and outs of teaching children in pre-kindergarten through fifth grade and in English to Speakers of Other Languages (ESOL) and special education inclusive settings. Your extensive field-based experiences effectively develop your knowledge and ability to encourage developmentally-appropriate learning in diverse settings across grade levels.

WHAT YOU’LL LEARN

- Content knowledge in all academic disciplines taught in elementary classrooms
- Current research and best practices
- Developmentally-appropriate technology and activities

SAMPLE COURSES OFFERED

- Child Development
- Teacher as Responsible Practitioner in the 21st Century
- Individual and Classroom Management
